

## Image and Video Licensing Fees for Commercial Web Use

All images on this website are © Chris Pearsall Photography

Rights to reproduce, publish, display, distribute, transmit, copy, or duplicate any of our photographs or video via any medium and by whatever means, must be acquired before any such use. The images and video on this site may not be used for any purpose without express written consent. Unauthorised duplication or usage is prohibited by the Copyright law and will be prosecuted by our Intellectual Property Rights agents.

All rights acquired to use our photographs and video are non-exclusive, non-assignable, and non sub-licensable rights to reproduce the licensed material (unless otherwise negotiated), solely to the extent and scope explicitly stated in the licensing agreement. No ownership or copyright in any licensed material shall pass to the Licensee by the issuing of the license.

Photographs and video displayed on our website, our social media pages, Google Business Page and other third-party promotional sites we may subscribe to, are available to license under a "Rights-Managed" license. A Rights-Managed license type allows a licensee to use material for specific usage, duration and geographic limit. The cost of the license depends on the extent, scope, and prominence of the use of the photograph or video.

The fees shown below are a guide, so please contact us with specific details of your usage requirements for an exact price. Our minimum licence fee (3 months) regardless of use is £250.00. Add 25% for six months use, 50% for twelve months use and 100% for two year use.

### Photography

SME	£250.00
National Company	£350.00
Multi-national company	£500.00
